

FSB Product series 1262

Shigeru Ban

Carbon or aluminium? – A familiar question for racing cyclists. The Japanese architect and Pritzker prize-winner Shigeru Ban has a ready answer for door handles at least, i.e. “Both”! FSB 1262 combines a carbon grip in the shape of a pleasing-to-hold ellipse with an aluminium neck to suit both standard and cranked handle models.

Recommended rose/backplate variants

Design: Shigeru Ban

Aluminium model can only be supplied
in 0105 Natural-colour Anodised
